SureScripts Consent

In 2011 the Federal Government mandated that all providers submit their prescription requests to your pharmacy through electronic transmission. This is to ensure a safe, secure way to protect the privacy of your health information.

To comply with this mandate Orthopaedic Associates of St. Augustine is in the process of implementing ePrescribing at both of our locations.

ePrescribing not only ensures security in the transmission it also allows your physician to see important information such as drug interactions and your prescription history.

The benefits to you as the patient:

- Reduced chance of adverse drug interactions
- Reduced possibility of medical errors
- Fewer trips to the pharmacies to drop off a prescription
- The ability for the doctors to reconcile our records with the pharmacy for accuracy

Patient Consent:

I agree that Orthopaedic Associates of St. Augustine may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payers for treatment purposes.
